Math Supplies for the 2026-2027 School year

All students at CSCS are REQUIRED to have either a Texas Instruments TI-Nspire CX II or TI-Nspire CX II CAS handheld device, depending on the math courses they plan to take during high school.

- It is advisable to purchase a TI-Nspire CX CAS **For those expecting to take:**

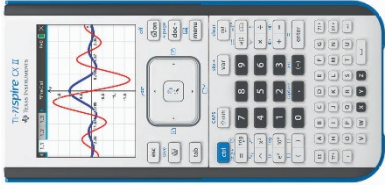

- Honors Trigonometry/Precalculus
- AP Calculus
- Honors Physics

- **For students planning to take:**

- Math through Algebra II
- Probability and Statistics
- College Algebra
- AP Statistics

The TI-Nspire will adequately meet their needs.

However, we recommend the CAS version, as it can be used on the SAT and all AP exams. (Note: For the ACT, the CAS can function in “Test” mode.)

All Students taking Math	
<p>TI – Nspire CX II</p> 	<p>TI – Nspire CX II CAS</p> 
<p>This handheld may be used in</p> <p>Algebra I, Introductory Algebra Geometry, Honors Geometry Algebra II, Honors Algebra II Honors College Algebra</p> <p><small>*This handheld may be purchased in many local stores.</small></p>	<p>This handheld may be used in any high school math course, but is <u>REQUIRED FOR</u></p> <p>AP Trig/Precalculus AP Calculus Honors Physics AP Statistics</p> <p><small>*This handheld must be purchased on the internet; it is not carried in many local stores.</small></p>

The following is the general supplies for all math classes. There may be a couple more items needed on the first day of class.
